The Director of Central Intelligence

Washington, D.C 20505

Critical Intelligence Problems Committee

14 August 1985  
DDW-127

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--14 August 1985

CIPC Organizational Activities

- We are in the process of scheduling a series of orientation/courtesy calls for Steve. These visits will include senior IC Staff management, CIPC members, individual meetings with the CIPC staffers, Working Group Chairmen, and others as appropriate.
- The Terrorism Study was forwarded to the DCI on 13 August for his approval and promulgation.
- Subsequent to your review, the Narcotics Follow-up Report and the Mobile Missile Study will also be forwarded to the DCI this week.
- The CIPC staffers have been tasked to identify potential substantive areas that might warrant CIPC study or a CIPC staff paper. The staff has been given two weeks to complete this effort. Their reports are to include a brief paragraph describing the problem, appropriate background information, recommended scope of the study or staff paper, and a brief outline.
  - In addition, a memorandum, for your signature, is being prepared requesting that the CIPC members identify potential critical intelligence problems that warrant CIPC consideration and study.
- Our new secretary, [REDACTED], has a break in her training and orientation and will be visiting with us on Wednesday and Friday.

BMD Follow-up Study: [REDACTED]

- A revised draft of the follow-up BMD study has been forwarded to the members of the BMD Working Group for their review. Members have been requested to provide their comments by phone. If necessary, a working group coordination session will be held on 19 August. Mel plans on having a fully coordinated draft by 23 August. At this time, the BMD Working Group's comments on the Perry Panel report will be included in the follow-up report.

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--14 AUGUST 1985

25X1

Mobile Missile Panel: [REDACTED]

- All the revisions have been made to the Mobile Missile Study, and once the complete package--including a covering memorandum to the DCI--has been assembled, it will be forwarded for your review and signature.
- Last week the panel continued to address the relocatable target issue at the behest of the Defense Science Board. On 8 August, the panel received a DIA briefing [REDACTED]. Also, the panel has been mapping out its strategy on how best to respond to the DCI's follow-on tasking regarding the arms control study.
- During the latter part of August, [REDACTED] will be assisting Ed [REDACTED] while Jim enjoys a two-week leave.

Narcotics Intelligence: [REDACTED]

- Proposed revisions identified at the 5 August CIPC meeting have been included in the final draft. Language on the section referring to counterintelligence and narcotics was coordinated with the A/NIO/Narcotics as were the changes to the recommendation affecting imagery collection and analysis. A DDI/OGI representative also coordinated on the wording of this recommendation.

25X1

Collection Strategy Evaluation Method: [REDACTED]

- As you know, Willie has been devising a means of evaluating future collection strategies and associated collection system mixes. He is now preparing a short overview briefing to acquaint CIPC and ICS management with the concept, which he has labeled Collection Strategy Evaluation Method (CSEM). The concept exploits data contained in the Future Intelligence Requirements Forecast (FIRF), which attempts to project intelligence needs during the next couple of decades.
